HP is a technology solutions provider to consumers, businesses and institutions globally. The company's offerings span IT infrastructure, global services, business and home computing, and imaging and printing.

Through our strategic partnership with HP, Unitiv is able to offer a broad range of solutions focused on helping customers manage and transform their technology environments for better business outcomes.

The challenges faced by today's businesses grow and change almost daily. Preparing the enterprise for the future while creating IT solutions that effectively meet today's demands requires forward-thinking technology partners. With a rich and well-documented history of innovation and invention in IT, HP fits the needs of our clients.

Through HP, Unitiv provides clients with the innovative, industry-leading products and expert services that can ensure your infrastructure functions as a true competitive differentiator by delivering superior service levels at the lowest possible TCO.

Unitiv's HP Portfolio of Products:

- Industry Standard Servers (ISS) – (ProLiant and Blade Servers)
- Business Critical Servers (UNIX Servers)
- Virtualization products and solutions
- Storage Solutions
- Workstations & Workstation Blades
- Software Solutions
- Comprehensive Support Services

These solutions are backed by legendary HP quality, and a full range of support and maintenance services is available through Unitiv.
