- ◆ Highest level of certification for four product groups -  
Sparc - X64 - Storage - Software

The singular vision - "The Network Is The Computer" - guides Sun in the development of technologies that power the world's most important markets.

Sun provides a diversity of software, systems, services, and microelectronics that power everything from consumer electronics, to developer tools and the world's most powerful datacenters.

Through Sun's leading-edge technology, Unitiv has been able to deliver innovative technology solutions to nearly every industry in today's market. Based on our rich and extensive history with Sun, Unitiv is thoroughly qualified to help you plan, build, implement and grow an exceptional IT environment that delivers the level of service our clients have come to expect. By selecting a partner that has both a proven history of success and a firm commitment to the future, you can feel confident that any Sun-based solution you select is developed from years of experience, best practices, and a dedication to your success.

Unitiv provides a full range of solutions from Sun – from the needs of individual users at the workstation level, to the high performance and reliability demands of enterprise datacenters.
